ABSTRACT

Widiastuti, Emi. 2013. *An Analysis of Logico-Semantic Relation of Clause Complexes in Breaking News of VOA*. Skripsi. English Education Department, Teacher Training and Education Faculty, Muria Kudus University. Advisors: (i) Rismiyanto, S.S, M.Pd., (ii) Diah Kurniati, S. Pd, M.Pd.

Key words: *Logico-Semantic Relation, Clause Complex, Breaking News of VOA*.

Logico semantic relation is the way in which clauses either independent or dependent build on the meaning of the clauses that are related. It means that to realize the meaning in a clause complex, we need logico-semantic relation. Students still have many difficulties in analyzing clause complex. It means that they also have difficulties in understanding logico-semantic relation. I analyze logico-semantic relation of clause complexes in breaking news of VOA, especially entertainment news. Because, I assume that there are many students are interested in watching entertainment news, especially the students of Muria Kudus University.

The objective of this research is to discover the use of logico-semantic relation of clause complexes in entertainment news of breaking news' VOA in 2013 edition. That main objective involves two further objectives are to discover the types of taxis used in entertainment news of breaking news' VOA in 2013 edition and to discover the kinds of logico-semantic relation used in entertainment news of breaking news' VOA 2013 edition

This is descriptive qualitative research. The data of the research is logico-semantic relation meanwhile the entertainment news of breaking news' VOA is as the data source of the research.

Based on the finding of this research, the types of logico-semantic relation that mostly use in the entertainment news of breaking news' VOA is Elaboration which the reporter of the entertainment news of breaking news' VOA elaborates on the meaning of another by further specifying or describing. To report a news, we should give a clear information by elaborating it to avoid misunderstanding. And the least use is idea. Idea is what the someone thought and sense. It means that if we give information to the listener, it should be be fact. And the truth that someone thought and sense is not sure yet. The listener will be doubt if we give information use projection idea.

From this research, I hope the lectures and students pay attention more the logico-semantic relation, especially elaboration because it is the mostly use. And for the further researcher, I hope that the next researchers can develop their study probably by conducting a much more detail study about this related topic but in other data source.

ABSTRAK

Widiastuti, Emi. 2013. *Analisis hubungan logico-semantic dalam klausa kompleks di liputan berita VOA*. Skripsi. Fakultas Keguruan dan Ilmu Pendidikan, Pendidikan Bahasa Inggris, Universitas Muria Kudus. Pembimbing: (i) Rismiyanto, S.S, M.Pd., (ii) Diah Kurniati, S. Pd, M.Pd.

Kata kunci: *Hubungan logico-semantic , klausa kompleks, liputan berita VOA*

Hubungan logico-semantic adalah proses dimana klausa induk ataupun klausa anak membangun makna dari klausa-klausa yang berhubungan. Itu berarti untuk merealisasikan makna dalam sebuah klausa kompleks kita membutuhkan hubungan makna yang logis. Para murid masih mempunyai banyak kesulitan dalam menganalisis klausa kompleks. Itu berarti mereka juga mempunyai kesulitan dalam memahami hubungan logico-semantic. Saya menganalisis hubungan logico-semantic dalam klausa kompleks di liputan berita VOA. Khususnya berita hiburan. Karena saya berasumsi bahwa banyak mahasiswa yang tertarik menonton liputan berita hiburan, khususnya mahasiswa UMK.

Tujuan dari penelitian ini adalah untuk mengetahui penggunaan hubungan logico-semantic dalam klausa kompleks yang terdapat dalam liputan berita hiburan VOA edisi 2013. Tujuan utama tersebut mencakup dua tujuan lainnya yaitu untuk mengetahui tipe taxis yang terdapat dalam liputan berita hiburan VOA edisi 2013 dan mengetahui tipe hubungan makna logis yang terdapat dalam liputan berita hiburan VOA edisi 2013.

Penelitian ini merupakan penelitian kualitatif deskriptif. Data dari penelitian ini merupakan hubungan logico-semantic, sedangkan liputan berita hiburan VOA sebagai sumber data dari penelitian ini.

Berdasarkan hasil penemuan dalam penelitian ini, tipe hubungan logico-semantic yang paling banyak digunakan di dalam liputan berita VOA adalah Penjabaran yang mana pembawa berita tersebut menjabarkan makna dengan menspesifikasikan dan menggambarkan makna tersebut. Untuk melaporkan berita, kita harus menyampaikan informasi yang jelas untuk menghindari kesalahpahaman. Dan yang paling banyak digunakan adalah ide. Ide adalah apa yang seseorang pikirkan dan rasakan. Itu berarti untuk menyampaikan informasi kepada pendengar seharusnya bersifat fakta agar mereka tidak ragu. Kebenaran yang orang pikir itu belum tentu benar.

Dari penelitian ini, saya berharap para pengajar, dan siswa lebih memperhatikan tentang hubungan logico-semantic, khususnya penjabaran karena penjabaran yang paling sering digunakan. Dan untuk peneliti selanjutnya, saya berharap agar mereka mengembangkan penelitian ini dengan topik yang berhubungan tetapi berbeda dalam penggunaan sumber data.
